

# How to Change Domain Nameservers

You can modify the name servers of the domain name at <https://admin.dotroll.com>.

1. Sign in with <https://admin.dotroll.com> with your username and password
2. In the top menu bar, click the **Domains / My Domains** menu.
3. Select the domain name for which you want to make the change and then click on it.
4. In the **Manage** box on the left, select **Nameservers**
5. Once the page has been loaded, select **Use custom nameservers (enter below)** and enter the new name servers.
6. Click **Change Nameservers** button.

If you have a technical problem setting up the name server, it will indicate our page at the top of the page.

The set-up time will take up to 24 to 48 hours, so the domain name will only work properly.
