# Publish Site

Once you have done with your **Theme Editing** and want to **Publish** your **Site** you can follow this guide.

1. Go to your **Dashboard** and click on **Publish** button present at the **Top of Dashboard** as shown in the image below.
   **Note:** It is not necessary to always go to **Dashboard** for Publishing your Site. You can click on **Publish** button anywhere inside your **Dashboard** or **Page Editor** and follow below steps.
